

MY BROTHER'S A GENIUS

SONIC STORY

This is the **Sonic Story** for *My Brother's a Genius*. It shows **loud and quiet moments** in the show and moments when the **sound changes suddenly**.

A Sonic Story can be **used by anyone** who would like to know about the sounds of the show in advance.

The sounds of the show **change regularly** from moments of **loud music** to **quiet moments** with no talking or music.

Music plays in the space before the show starts. There is a **pre-show announcement** 5 minutes before the show starts. This is pre-recorded (so you don't see the person speaking).

There are **two characters** in the story – **Daisy and Luke** – you will hear them **talk** and **perform spoken word songs** regularly throughout the show. Sometimes Daisy and Luke play other characters and **speak in different voices** (for example pretending to be their parents).

Sometime the characters **speak into a microphone** on stage.

There is **loud music** regularly throughout the performance. These moments are shown with a **speaker symbol**. There are also regular **sound effects** like **phone beeps, clock ticking** and **heartbeats**.

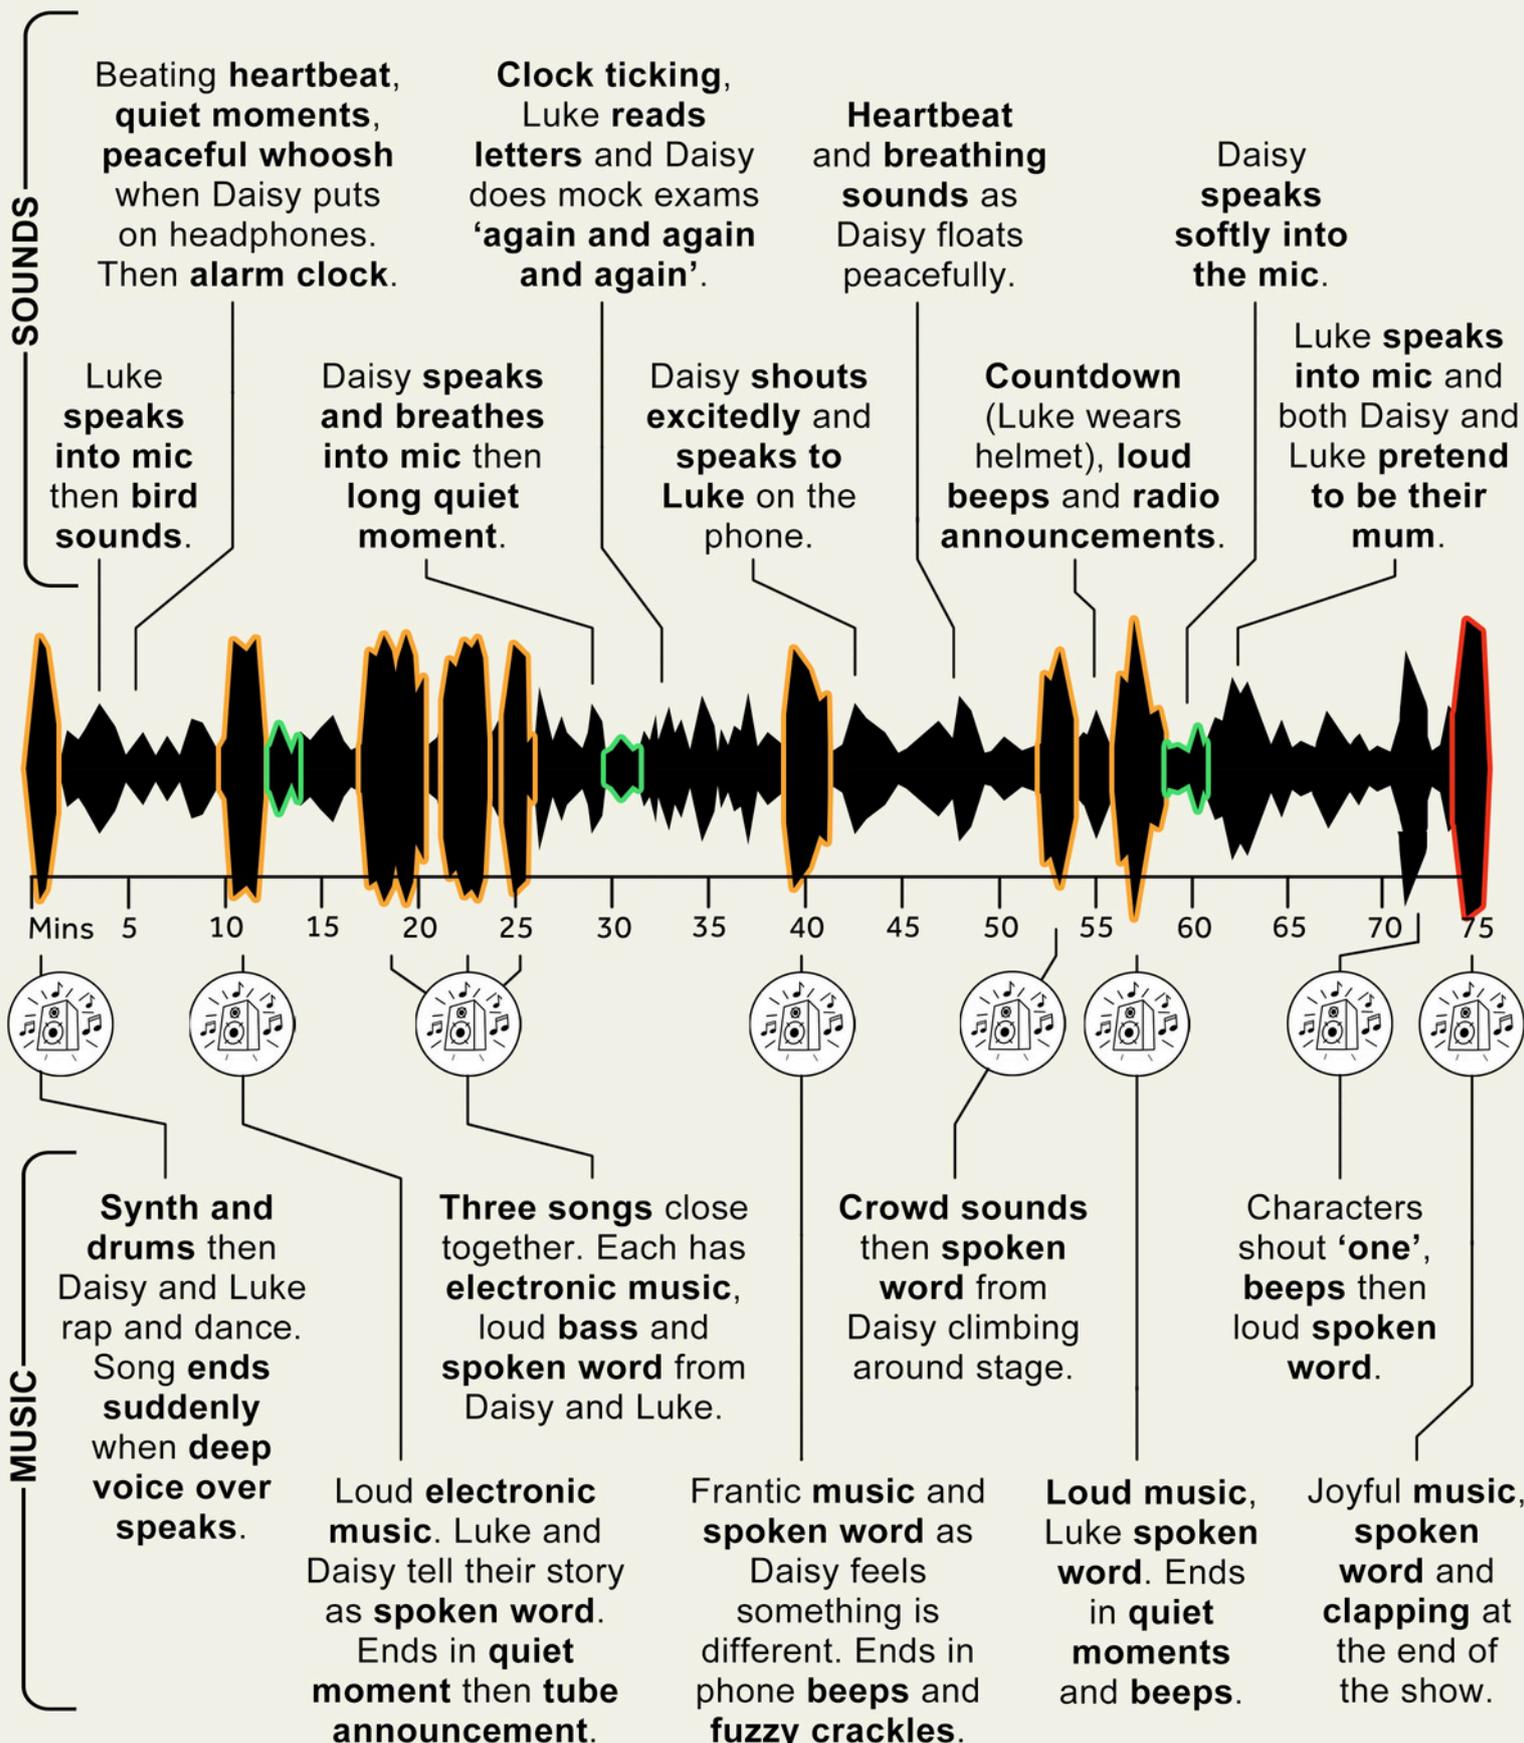

The next page describes the sounds in **more detail**.
